Administrative directive – 2021-04

Target Committee: None

Target clubs: Highland Lynx/Highlander Canada

Target audience: Highland Lynx breeders in Canada
Chats Canada Cats' Registrar

Whereas the Board of Directors accepted the Highland Lynx breed as an Evolving Breed on January 14, 2014

Whereas a referendum has been carried out with members of the Highland Lynx/Highlander Canada affiliate club for the adoption of a first breed standard in Canada

Whereas this standard specifically requires the test for white spots (Ws) as a registration requirement

Whereas the Board of Directors accepted the standard adopted by Highland Lynx breeders in Canada at their meeting on May 6, 2021

Whereas the Board of Directors wishes to respect the decisions of the members of the affiliated club Highland Lynx/Highlander Canada

On May 6, 2021, the Cats Canada Cats' Board of Directors decides that the White Spot (Ws) test will be required for the registration of Highland Lynx breeding cats as of January 1, 2022.

Through this directive, the Board of Directors wishes to offer a transition period to breeders to facilitate the transfer of registrations.
